*A Conversation guide for caregivers, social workers, probation officers, attorneys & CASA's*

Eighteen means new choices. We'll be by your side.

## TALKING WITH EMERGING ADULTS:

*A Conversation guide for caregivers, social workers, probation officers, attorneys and CASA's.*

Every year, 5,000 foster youth across California “age out” of the system. Too often, many have little or no support as they learn to become adults. However, in California, the passage of the California Fostering Connections to Success Act (AB12 and AB212) has ensured the continuity of care through the development of Extended Foster Care (EFC) to eligible young adults until age 20. This important legislation has created a safety net for young adults and a supportive environment to develop and acquire independent living skills needed to not only survive, but thrive in today’s world. The new law will allow eligible foster youth to stay in the system longer, receive additional supports in supervised settings while they work, finish school or other training to enable them to successfully transition to independent adulthood

A series of videos has been created to provide foster youth and caring adults with introductory information about this new law in order to ensure all eligible youth know about the available choices that will impact their future. To maximize the potential for the After 18 Videos to be a catalyst for change, a series of step by step conversation guides has been developed to facilitate a dialogue between youth and a caring adult such as a caregiver, social worker, probation officer, attorney or CASA. These conversations inform youth about the benefits of the new law and encourage them to consider remaining in Extended Foster Care. The guide offers a series of questions that can help facilitate a productive conversation as well as provide necessary information about the California Fostering connections for Success Act.

## SETTING THE STAGE

The videos are each approximately 3- 4 minutes in length. Allow for time to consider the choices and to think about how this could impact the youth’s future. View the videos in a quiet location, where it is comfortable to discuss and think about what opportunities there are under the law. You will want to ensure you have 20-30 minutes for this reflection time after viewing the videos.

## Overview Video

*The Overview DVD video covers the basics of AB12 and introduces youth to the basic facts of Extended Foster Care.*
